

CITY OF KYLE

Building Department Inspection Update

October 22, 2024

Pursuant to section R109.1.5 of the 2021 International Residential Code, the City of Kyle Building Department will begin inspecting all new residential driveways and sidewalks starting January 1, 2025. For the replacement of existing driveways and sidewalks in the public right of way please contact the Public Works Department at 512-262-3024, for inspections.

The City of Kyle will be utilizing the same standards for driveways and sidewalks used by other municipalities in the area. A detail and an inspection checklist outlining minimum widths, concrete reinforcement, expansion joints, approach radius, maximum slopes and all other driveway and sidewalk specifications can be found on the Building Department website. [Building Department Rulings and Procedures | Kyle TX](#)

All permit applications for new residential construction submitted on or after January 1, 2025, will have a driveway and sidewalk inspection included in the workflow. The driveway and sidewalk inspection will need to be scheduled as soon as the forms and ancillary driveway components are complete. Inspection staff will be checking to ensure compliance with Texas Accessibility Standards and our approved driveway specifications.

Sincerely,

Kelly Stilwell CBO, I-2461
